

Welcome to Cigna LocalPlus.

Your guide to finding a health care provider in the LocalPlus network.

Your health care network is called Cigna LocalPlus®.

At the heart of LocalPlus is a local network¹ of doctors, specialists and hospitals who understand the needs of your community.

How you can save:*

- In your local area, or when in any LocalPlus network area, you must receive care from a health care professional or facility in this network to receive in-network coverage.
- If you're away from home and need care, just look for a participating LocalPlus doctor in the area, or, if one isn't available, you can use doctors or hospitals in our Away From Home Care network.
- If you choose to go outside the LocalPlus network when one is available (or outside the Away From Home Care network when LocalPlus isn't available), you will receive out-of-network coverage.

* You will be responsible to pay a deductible, any applicable copays and/or a percentage of your covered in-network or out-of-network costs until you reach the out-of-pocket maximum.

Please see the next pages for instructions on how to find a doctor or hospital in the LocalPlus network.
