Provider information appearing in ProviderSearch represents data in Health Net systems as of 1/27/2017. Health Net builds and maintains the provider networks based on the network adequacy regulations as outlined by state and federal regulators. While every effort has been made to ensure accuracy, from time to time the status or contact information of a physician/provider may change, meaning that a new physician/provider may be added or a current physician/provider may either leave our network or decline to accept new patients. We suggest that you call the Health Net customer service number on the back of your member ID card to verify that the physician/provider is still in the plan.
