

Creditable Coverage 2026

The Medicare Modernization Act (MMA) requires Employers with group health plans to notify Medicare eligible policyholders whether their prescription drug coverage is creditable coverage.

Coverage is considered creditable if it meets or exceeds the value of the standard Medicare Part D prescription drug plan.

This lists the Prominence Commercial health plans that are classified as **non-creditable**. Any plans not listed in this guide are considered *creditable*.

For more information about Creditable Coverage, please visit [CMS | Creditable Coverage](#)
