

The Rx BIN number is a 6-digit number health plans use to process electronic pharmacy claims. Rx BIN and PCN numbers are used by new members to pick up a new prescription (or refill) prior to having a new ID card or showing up in the new Carrier's Rx system. Often the Rx system is separate from the Carrier's medical system, so it typically takes another 24-48 hours for members to show up in the Rx system. Please refer to the ID numbers below, if necessary, to re-order prescriptions during this short transition period.
