### App for downloading ID cards

MetLife ID Cards are not required for service. Providers can look up with SSN/DOB. Employees can register on **Mybenefits** ([metlife.com/mybenefits](https://metlife.com/mybenefits)) and download an I.D. Card.

For **PPO** coverage I.D. cards are not required; however, there is an option in MetLink to order small batches of generic I.D. cards and they go directly to the customers address **ATTN:** to the **Benefit Administrator**. They can then share with employees that insist on having an I.D. card.

For **DHMO** cards, the personalized cards are sent directly to the member's home because they are required to select a provider, and this information will be on the personalized card.
