Get to Know Your Pharmacy Formulary

Prominence Health Plan develops a medically sound formulary that supports patient health and is reviewed by a Pharmacy and Therapeutics Committee (P & T Committee), made up of practicing physicians, pharmacists, and nurses. The committee reviews and evaluates medications on the formulary based on safety and efficacy to help maintain clinical integrity in all therapeutic categories.

The health plan formulary also uses utilization management functions to promote use of specific cost-effective agents. These utilization management functions include step therapy, prior authorization, quantity and age limits.

FORMULARY DESIGN

The Prominence Health Plan formulary design features different copayment amounts for medications in tiers:

- **Tier 0** Preventive Essential Health Benefits (includes certain vaccines, contraceptives, smoking cessation medications and more)
- **Tier 1** Generic
- **Tier 2** Preferred Brand
- **Tier 3** Non-Preferred Brand
- **Tier 4** Specialty

PHARMACY BY MAIL

If you take prescribed medications regularly, you can have them delivered right to your door. The Pharmacy by Mail Program offers custom delivery service for your maintenance medications – the ones you take regularly for chronic or long-term conditions. This delivery option offers flexibility in payment options, how prescriptions are ordered and where they are delivered.

If you have general questions regarding your prescription drug plan, please call the Pharmacy Help Desk at 833-775-MEDS (6337):

Option 1 - Mail Order Pharmacy

Option 2 - Specialty Pharmacy

Option 3 - Pharmacy Help Desk (all other pharmacy-related needs)

Member Services representatives are available to assist you 24/7.

USING THE FORMULARY REFERENCE GUIDE TO HELP CONTAIN COSTS

Prominence Health Plan uses this formulary to help manage the overall cost of providing prescription drug benefits. This formulary offers a wide range of medications from which to choose. This formulary reference guide may not include every drug from every manufacturer. However, choosing a preferred drug when it is appropriate can provide access to the necessary medications to stay healthy, at a cost that is more affordable.

If a brand-name product is listed in the "preferred brand-name" section and its corresponding generic product is not listed in the "generics" section, then a generic version of the medication is not available.

SAVING ON OUT-OF-POCKET COSTS

Your prescription drug plan determines the cost for generic, preferred brand-name, non-preferred brand name and specialty medications. Choosing non-preferred drugs may mean paying higher out-of-pocket expenses (such as coinsurance, copayments, and deductible amounts) or not receiving coverage at all. Members may also pay less for generic drugs, or you may be asked to pay the cost difference between brand-name drugs and their generic alternatives, which are preferred by the plan.

PRIOR AUTHORIZATION

Certain medications require prior authorization. A prior authorization form should be completed by your provider that will request coverage for a specific drug within the formulary, a non-formulary drug for which there is no suitable alternative available, or any medication with restrictions.

CONSULTING THE PRESCRIBER'S OFFICE WHEN APPROPRIATE

Your pharmacy benefit may provide coverage only for certain medications or for particular uses, time periods, doses, or quantities (e.g. they may exclude coverage for medications for unapproved, unproven, or cosmetic indications, as well as over-the-counter medications). When coverage for medications is provided based on use or quantity, our Pharmacy Team may contact your prescribing doctor's office for additional information to determine whether coverage is available under your plan. If you are unsure about whether these coverage rules apply for a particular medication, you can consult a Member Services representative to determine specific coverage requirements.

Formulary Disclaimer: Coverage for some drugs may be limited to specific dosage forms and/or strengths. The benefit design determines what is covered and the applicable copayment. The medications listed on this formulary are subject to change pursuant to the formulary management activities of Prominence Health Plan. The presence of a medication on this formulary list does not guarantee coverage. You may also call Prominence Customer Service at the number listed on your ID card to request a copy be mailed to you.

Frequently used Abbreviations/Terminology

QL

Quantity Limit. For certain drugs, Prominence Health Plan limits the amount of the drug that we will cover. For example, Prominence Health Plan provides twelve tablets per prescription for Sumatriptan Succinate. This may be in addition to a standard one-month or three-month supply.

ST

Step Therapy. In some cases, Prominence Health Plan requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, we may not cover Drug B unless you try Drug A first. If Drug A does not work for you, we will then cover Drug B, subject to prior authorization and other requirements.

PA

Prior Authorization. Prominence Health Plan requires you or your physician to get prior authorization for certain drugs. This means that you will need to get approval from us before you fill your prescriptions. If you do not get approval, we may not cover the drug.

LA

Limited Availability. This prescription may be available only at certain pharmacies. For more information, consult your Provider and Pharmacy Directory or call the 24/7 Pharmacy Help Desk.

AGE

Age. There are age restrictions on certain medications. To have these age restrictions reconsidered, a prior authorization will need to be submitted by the prescribing provider.

NSO

New Starts Only. If there is no evidence that you have taken this drug before, you (or your physician) are required to get prior authorization from our plan before you fill your prescription for this drug. Without prior approval, our plan may not cover this drug.

ON

Opiate Naïve. A member is designated as Opiate Naïve if they have not had a prescription filled within the last 60 days. If a member is Opiate Naïve, they can receive up to a seven-day medication supply for the first prescription filled. After the initial fill, the member can receive up to a 30-day supply.

It is common for new Prominence members who have opiate medications regularly prescribed and filled to flag as Opiate Naïve because Prominence does not have the prescription history from the previous health carrier. Because of this, new members will receive up to a seven-day medication supply for the first prescription filled and then up to a 30-day supply for subsequent prescriptions.
