

PROVIDER SEARCH INSTRUCTIONS

<https://healthy.kaiserpermanente.org/southern-california/doctors-locations#/search-form>

A screenshot of the Kaiser Permanente provider search form. The page has a white background with a blue header bar containing the Kaiser Permanente logo and navigation links: "Why KP", "Shop Plans", "Doctors & Locations", and "Health & Wellness". A search bar is on the right. The main heading is "Find doctors and locations". Below it, a paragraph explains the importance of finding a doctor and provides a disclaimer. The form is titled "What can we help you find?". It has two main sections: "Search type" with buttons for "Doctors" and "Locations", and "Region" with a dropdown menu set to "California - Southern". There is a "Specific location" section with a "Use my location" button. Below that, there are fields for "ENTER ZIP CODE" and "DISTANCE" (set to "WITHIN 10 MILES"). There is also a "Select city" dropdown. A "More filters" link is present. At the bottom, there is a text box for "HOSPITAL, DOCTOR'S NAME, MEDICAL SPECIALTY, OR OTHER KEYWORDS" and a "Search" button.

1. Choose either doctors or locations, then select your region from the drop down.
2. Click "Use my location" to target your current location; otherwise, enter a ZIP code and select a radius within that ZIP code to search, or select a city from the drop down.
3. Click "More filters" to select provider type, if necessary. Enter search terms (hospital, doctor's name, medical specialty, or other keywords) in the final box to narrow results. Click "Search" to display results.
